

1 Open the filter cover by sliding it to the right.

2 Take out the old filter & replace with a new filter.

3 Close the filter cover.

4 Press and hold the “Filter Replacement Reminder” for 3 seconds to reset it.

**NOTE:** Before you begin please unplug the unit from its power source.

**NOTE:** To ensure optimal quality and performance, make sure to purchase original factory replacement UV lamps from Air Oasis.

**ATTENTION:** Unit will not power up if the filter cartridge is not fully inserted.
