

- 1 Open the filter cover by sliding it to the right.

- 3 Pivot the dust guard outwards and lift up to remove it from the air purifier.

- 5 Squeeze the release lever on the back of the lamp connector while pulling connector apart.

- 2 Take out the filter cartridge.

- 4 Slightly rotate and move the UV Lamp forward to remove it from the clips. Do not touch with bare hands.

- 6 Reverse the steps from (4-5) to install the new UVC lamp. Squeeze the release lever on the back of the lamp connector while pushing in connector.

NOTE: Before you begin please unplug the unit from its power source.

NOTE: To ensure optimal quality and performance, make sure to purchase original factory replacement UV lamps from Air Oasis.

ATTENTION: Unit will not power up if the filter cartridge is not fully inserted.
