

Client Testimonials & Reviews

"Thank you for the prompt service. My little 1000 unit has made a world of difference in my home. It has performed flawlessly. I wish all my purchases worked so well and required so little maintenance."

- Iain J.

"Hello, my 84 year old great grand mother has bragged about this Oasis purifier since I bought it for her. In fact in the last year and a half due to her bragging I have ordered 3 additional purifiers, two 1000s and one 3000 unit for other residents here at the living center apartments."

- Robert F.

"This picture is a great testimony to your product. I had no idea how bad my air was until I did the test. It's nice to know that I am breathing clean air now and feel much better knowing that my 3 kids are breathing good air as well. It's small enough that we move this to different rooms at night when someone has a cold or the flu to kill the bacteria and hopefully not spread the sickness to others in our house. It gives us great piece of mind. I just ordered the mini Air Oasis for my office. Thank you for the great product - it really does work!"

- Bob D.

"I am completely blown away from the quality of air that is put out by this Air Oasis machine. My wife and I sleep so much better now that this air purifier has cleaned our home. People that visit us even make comments about how fresh the air seems and how easy they can breath in our home. It is such a good feeling to know that my family is breathing healthy air again. We will never be without this Air Oasis machine ever again. We even take it on trips with us to use in our motel rooms. Thanks Dr. Jeff and your son Jon for fabricating such an excellent purifier. This unit will stop alot of sickness all around the world. May God Bless you both for all that all are doing for people's health every day."

- Roy Parker

"I live in Southeastern North Carolina. I love the way my house smells when I first walk in, just like it has just rained or that I have just cleaned. It is so nice to be confident when we have surprise company that my house smells ok. It has helped my sinuses and allergies too. I have used mine for several months now and I would recommend it to anyone. It is wonderful! I never thought anything like this would be this effective...but it works. Thanks."

- Pat K.

"I purchased the Air Oasis 3000 and 3 Air Quality Test Kits last week. I have attached pictures showing the results of the 3 Air Quality Test Kits. I tested the air prior to plugging in the Oasis 3000 and after."

- F. T.

AirOasis

Proven Technology

From the toughest odors to the most resilient bacteria, Air Oasis is pioneering the leading technology solutions

Scalable for any application with thousands of homes to the tallest building in the world

10+ years of University and 3rd party Testing

Made in the USA with quality components and strict quality control guidelines.

Energy Efficient technology is able to do more with far less electricity

Air Oasis Technologies Proven Effective Against:

Actual Client Results

 Aeroallergens Up to 99%	 Mold Up to 99%	 Fungi Up to 99%	 Yeasts Up to 95%	 Odors & VOCs Up to 85%	 Total Bacteria Up to 99%
 Viruses Up to 99%	 Smoke Up to 99%	 MRSA on surfaces Up to 65%	 Formaldehyde (HCHO) Up to 99%	 Airborne Particulates Up to 99%	 Ammonia (NH3) Up to 73%

 SARS Up to 74%	 H5N1 Up to 99%	 H1N1 Up to 99%	 Aspergillus Versicolor Up to 99%	 Penicillium Chrysogenum Up to 99%	 Legionella pneumophila Up to 99%

CMA's Multi-Containment Indoor Air Quality (IAQ) Report:

In only 3 hours Air Oasis significantly reduced all containments in a 2,000 sq. ft. warehouse while maintaining 0.000 ppmv of ozone.

	Unit	Before	1 Hour	2 Hours	3 Hours	Removal Rate
03	ppmv	0	0	0	0	0.0%
TVOC	ppbv	3600	603	20	20	>99%
TBC	CFU/m3	410	120	140	71	82.7%
HCHO	ppmv	6.8	1.6	1.5	0.1	98.5%
RSP	mg/m3	0.107	0.095	0.072	0.069	35.5%
NH3	ppbv	1200	620	300	320	73.3%
H2S	ppbv	85	9.9	20	2	>97%

* 03 - Ozone, TVOC - Total Volatile Organic Compounds, TBC - Total Bacteria Count, HCHO - Formaldehyde, RSP - Respirable Suspended Particles, NH3 - Ammonia, H2S - Hydrogen Sulfide.

WTAMU University Studies (Dr. Ghosh)

"I know of no other technology available that produces the high level of pathogen abatement as AIR OASIS air purification units."
~Professor (Dr.) N. Ghosh, Ph.D., MAAAI

Microflora & Propagules Reduction Study:

Almost complete reduction of microflora and propagules at 5 distances

72 hours
Almost complete reduction of microflora and propagules at 5 distances

Food Pathogens Study:

The Food Chamber with Air Oasis showed zero microbial colonies on the tested food units and surface swab cultures from the Air Oasis protected samples showed zero growth of any microflora compared to all control groups which exhibited microflora growth.

Major Fast Food Chain (Ice Machine) – Before and After since last physical cleaning

The Ice Machine with Bi-Polar saw virtually no bacteria or mold growth over 120+ days

Public Transportation - Formaldehyde (HCHO) and Total Volatile Organic Company (TVOC) : Air Oasis improved certified "good" quality air to "excellent" IAQ classification.
